**Thursday, April 25<sup>th</sup>**

**5:30 – 7:30PM**

Yreka Community Resource Center  
201 S. Broadway, Yreka

Lunch or dinner is included at all 3 trainings. Child care is available for both evening trainings.

## WHAT'S THE BIG DEAL?

Presented by

**Bruce Baldwin**

E-cigarettes, or vapes, have been the most commonly used tobacco product among youth since 2014. In 2023, 10.0% of middle and high school students reported current tobacco product use. E-cigarettes remain the most commonly used tobacco product among youth. Among middle and high school students who currently used e-cigarettes, 25.2% used e-cigarettes daily, and 89.4% used flavored e-cigarettes.<sup>1</sup>

### Parents and Community Members will learn:

- to recognize the most popular devices currently on the market
- how vaping may actually be MORE harmful to teens than smoking
- that using a vaping device is different than smoking cigarettes, and why that is so important for adults to know
- what to look for to tell if your child is vaping and ideas on how to talk with your kids about vaping
